Conflict of Interest (CoI)

Oral sessions

The speakers have been requested to prepare a transparency in which they declare their "Conflict of Interest (coi)". They also have to prepare a transparency, even if they have no "Coi".

Please ensure that all speakers show their transparencies before their lectures.

Session Details

By decision of the Board, the automated time limit has been applied. In order to keep the sessions running to schedule and allow questions from the audience the presentations are irrevocably terminated after the assigned speaking time has expired.

Sessions with TED

Some sessions will feature TED voting via Slido. If you are leading a session with TED, please inform the participants on site that they must scan the QR code on the screen in the room with their smartphone in order to participate in the voting. If the session is streamed, online participants will see the vote in the livestream and can also participate.

Poster sessions

The speakers have been requested to prepare a footer in which they declare their "Conflict of Interest (coi)". They also have to prepare a footer, even if they have no "Coi".

Please ensure that all speakers have announced their footer.

Thank you very much!
